# Land Development and Civil Construction Done Right

The road to success is never straightforward. There are always twists and turns along the way. That's why we explore every angle of a project upfront to ensure it runs smoothly and efficiently. Because for us, being the best isn't about getting it done fastest, or cheapest. It's about getting it Done Right.

# Who we are

## Our tight-knit family business has a reputation for getting jobs Done Right.

It all started back in 1990 with Stuart Tarbotton and one digger. In the years since, Tarbotton Land & Civil has grown to include the whole family, plus 40 or so dedicated staff. But one thing hasn't changed - our commitment to putting in the hard yards for our clients, whatever the job may be. We'll never compromise on our high level of service, quality and accuracy, and we always deliver on our promises.

# 30+

Number of years we have been getting jobs Done Right

# 45

The number of passionate, dedicated people in our team

# 2015

The year we opened our custom-built office, workshop and quarry

# 500+

The number of happy clients we have worked alongside in our 30+ years

# Why work with us

## Done Right for decades

Established in 1990, we've worked hard to become one of the most trusted and experienced contractors in the region. People choose us for our reputation for doing a good honest job - every project, every time. It's something we're immensely proud of and do everything to uphold.

## First-class fleet and facilities

Our investment in a first-class fleet and facilities reinforces our dedication to quality. Our fit-for-purpose workshop and office facilities also provide the foundations for our team to successfully deliver projects to a high standard.

## Investing in what matters

We keep up with the play by investing in the latest equipment and technology, along with ensuring our processes are up to date. Investing in what matters means projects are delivered as efficiently and accurately as possible.

## Everybody safe, every day

The health and safety of our team, our clients, our suppliers, and the general public is our top priority every single day. We are continuously reviewing and improving our systems, processes and procedures to ensure every person, every project, and every plant is safe all day, every day. We are proud to hold a SiteWise Green accreditation.

Our experienced team have the strength and skill to execute any land development and civil construction project, big or small. We take pride in ensuring every project is Done Right, right from the start.

# Our core capabilities

## Earthmoving

We’ve been working in Canterbury for over 30 years, so we know a thing or two about the ground conditions here. Our experience in earthworks, particularly in agriculture, has seen us become trusted contractors for farmers as well as land developers. We have the capabilities to both develop and maintain land assets.

Services include:

Effluent Systems	Tree Maintenance and Removal
Tracks, Yards and Laneways	Underground Services Installation
Irrigation and Water Races	Drainage
Water Troughs and Gateways	Wetlands
Land Conversions	Rut Busting
Feed Pads	Land Clearing
Culverts, Bridges and Underpasses	Offal, Refuse and Clamshell Holes

## Civil Siteworks

We understand that the road to success starts with thorough, upfront planning, which is why we bring in the right people to ensure your project gets off on the right foot. Our qualified and competent team can see you through any civil siteworks project, from subdivisions and carparks, through to drainage.

Services include:

Subdivisions	Service Installation and Connections
Foundations and Site Preparation	Entranceways and Shoulder Widening
Driveways, Carparks and Pavements	Concrete Pouring and Formation
Demolition and Site Clearing	Landscaping
Drainage	

# Our other offerings

## Quarry and Plant Supplies

We're committed to getting jobs Done Right, start to finish, which is why we have our own quarry to ensure we always have the materials needed to see your project through. With a weighbridge, mobile screening and crushing service, and aggregate available we have everything you'd expect from a commercial quarry.

**Services include:**

Mobile Screening and Crushing

Aggregate Supplies

Weighbridge Services

## Greenwaste and Hardfill Disposal

On top of supply, we can deal with unwanted materials too. We're consented to dispose of clean hardfill and greenwaste making any land clearing jobs more efficient.

**We accept:**

Clean Hardfill

Greenwaste

## Transport and Heavy Haulage

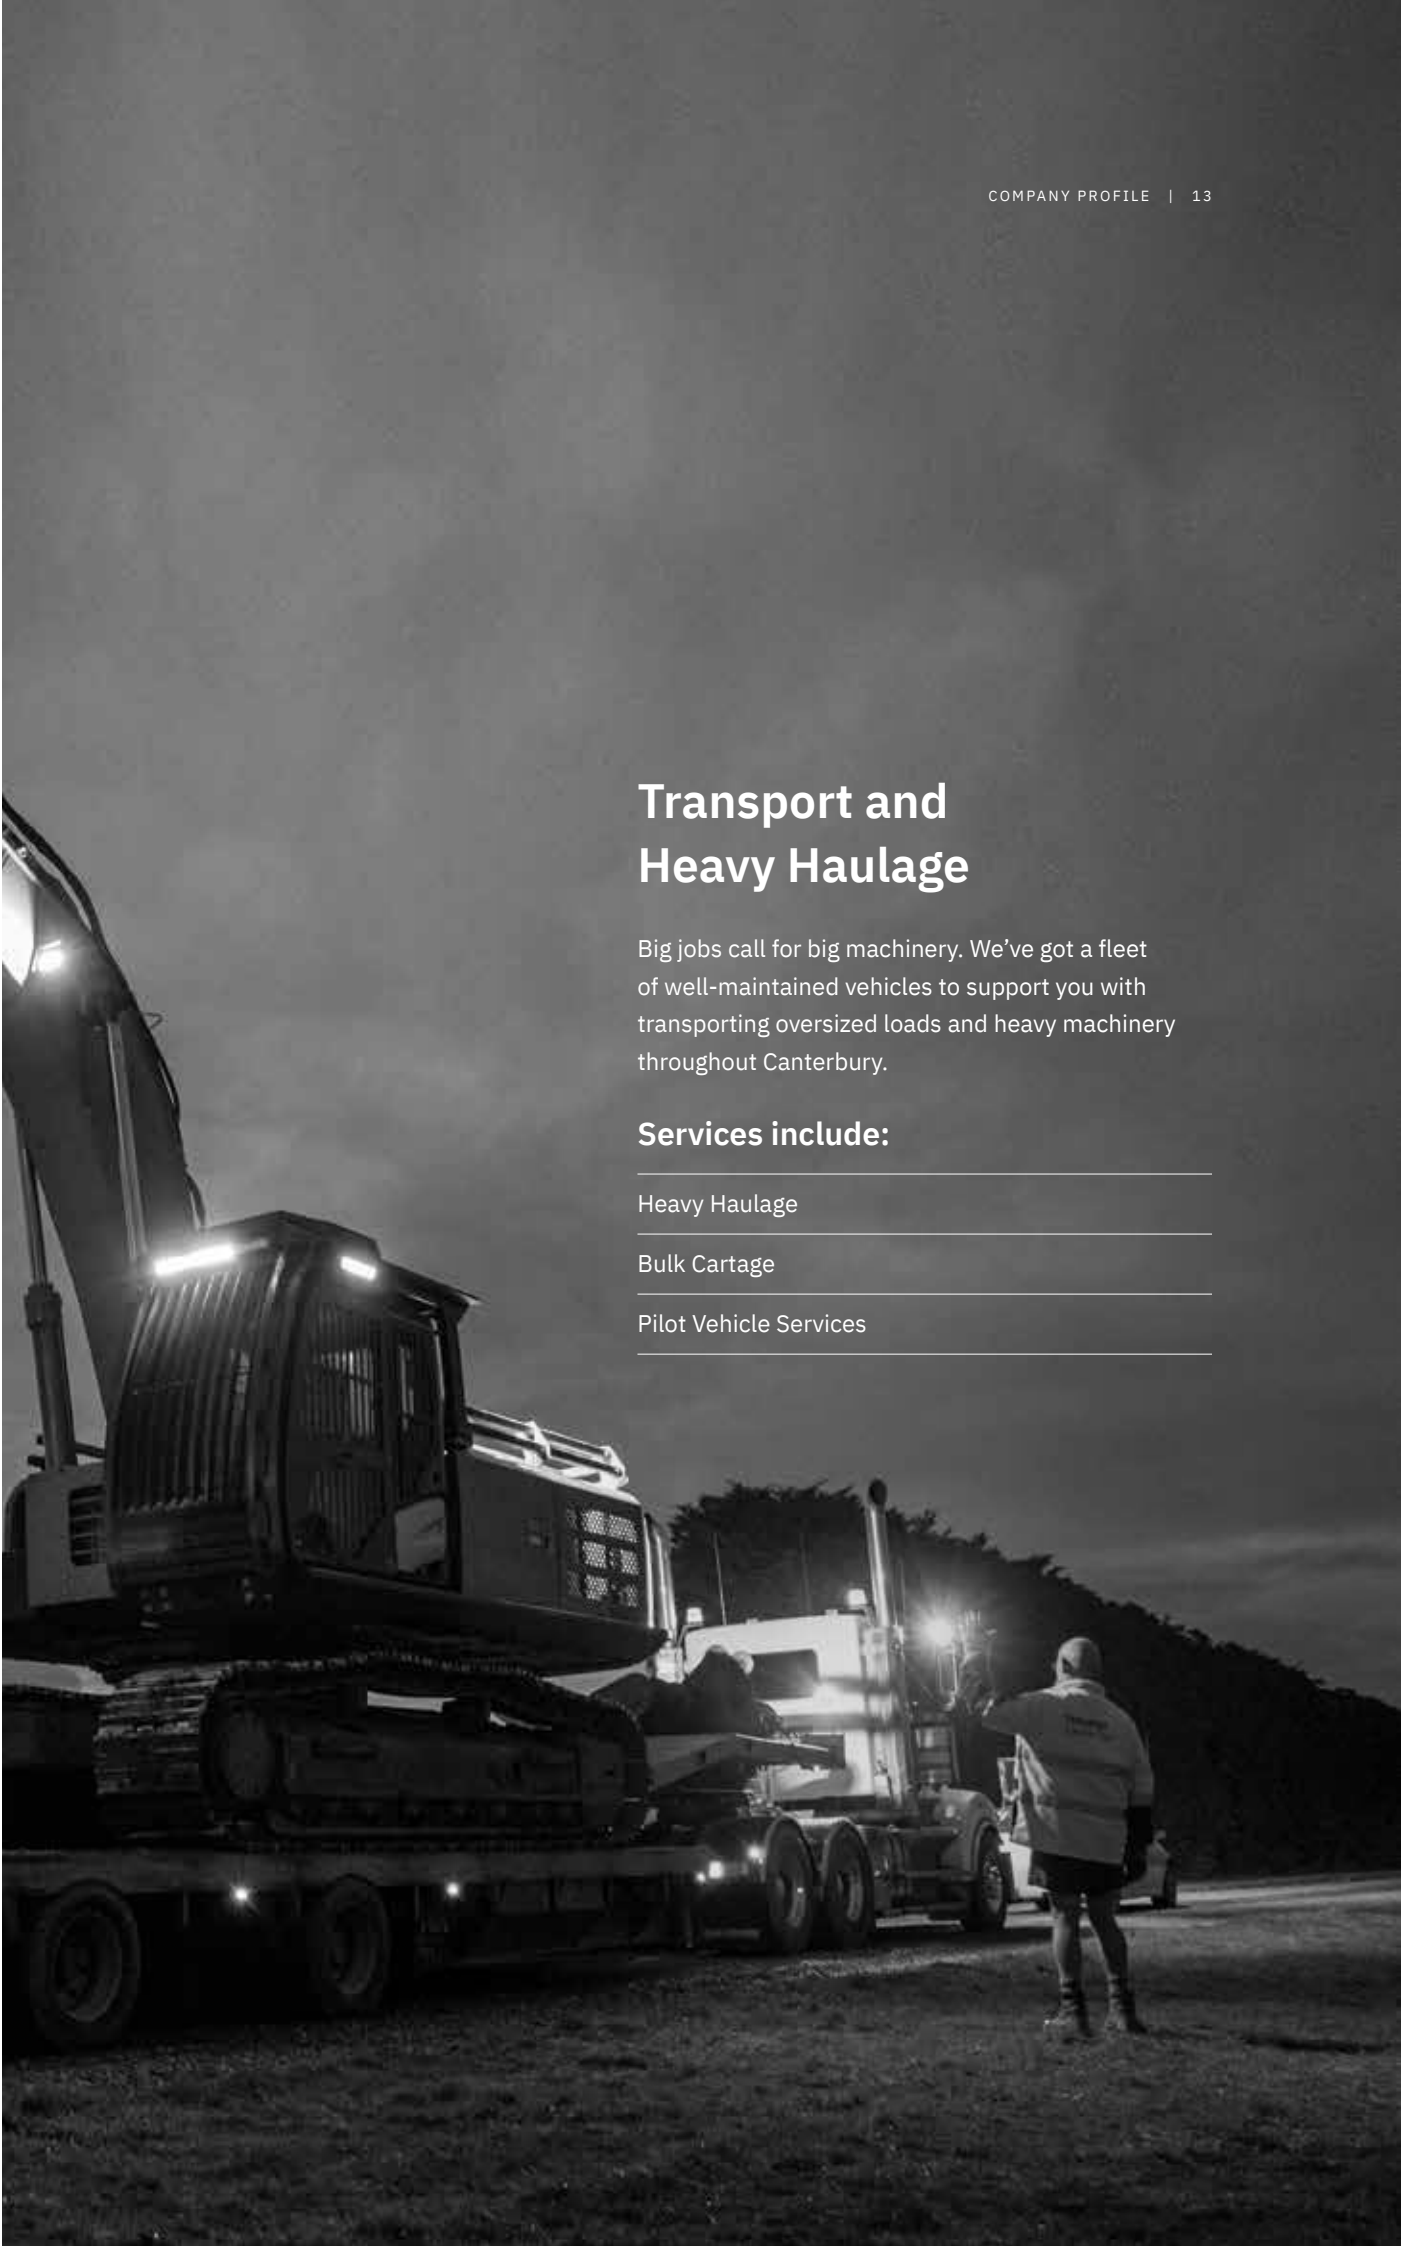

Big jobs call for big machinery. We've got a fleet of well-maintained vehicles to support you with transporting oversized loads and heavy machinery throughout Canterbury.

**Services include:**

Heavy Haulage

Bulk Cartage

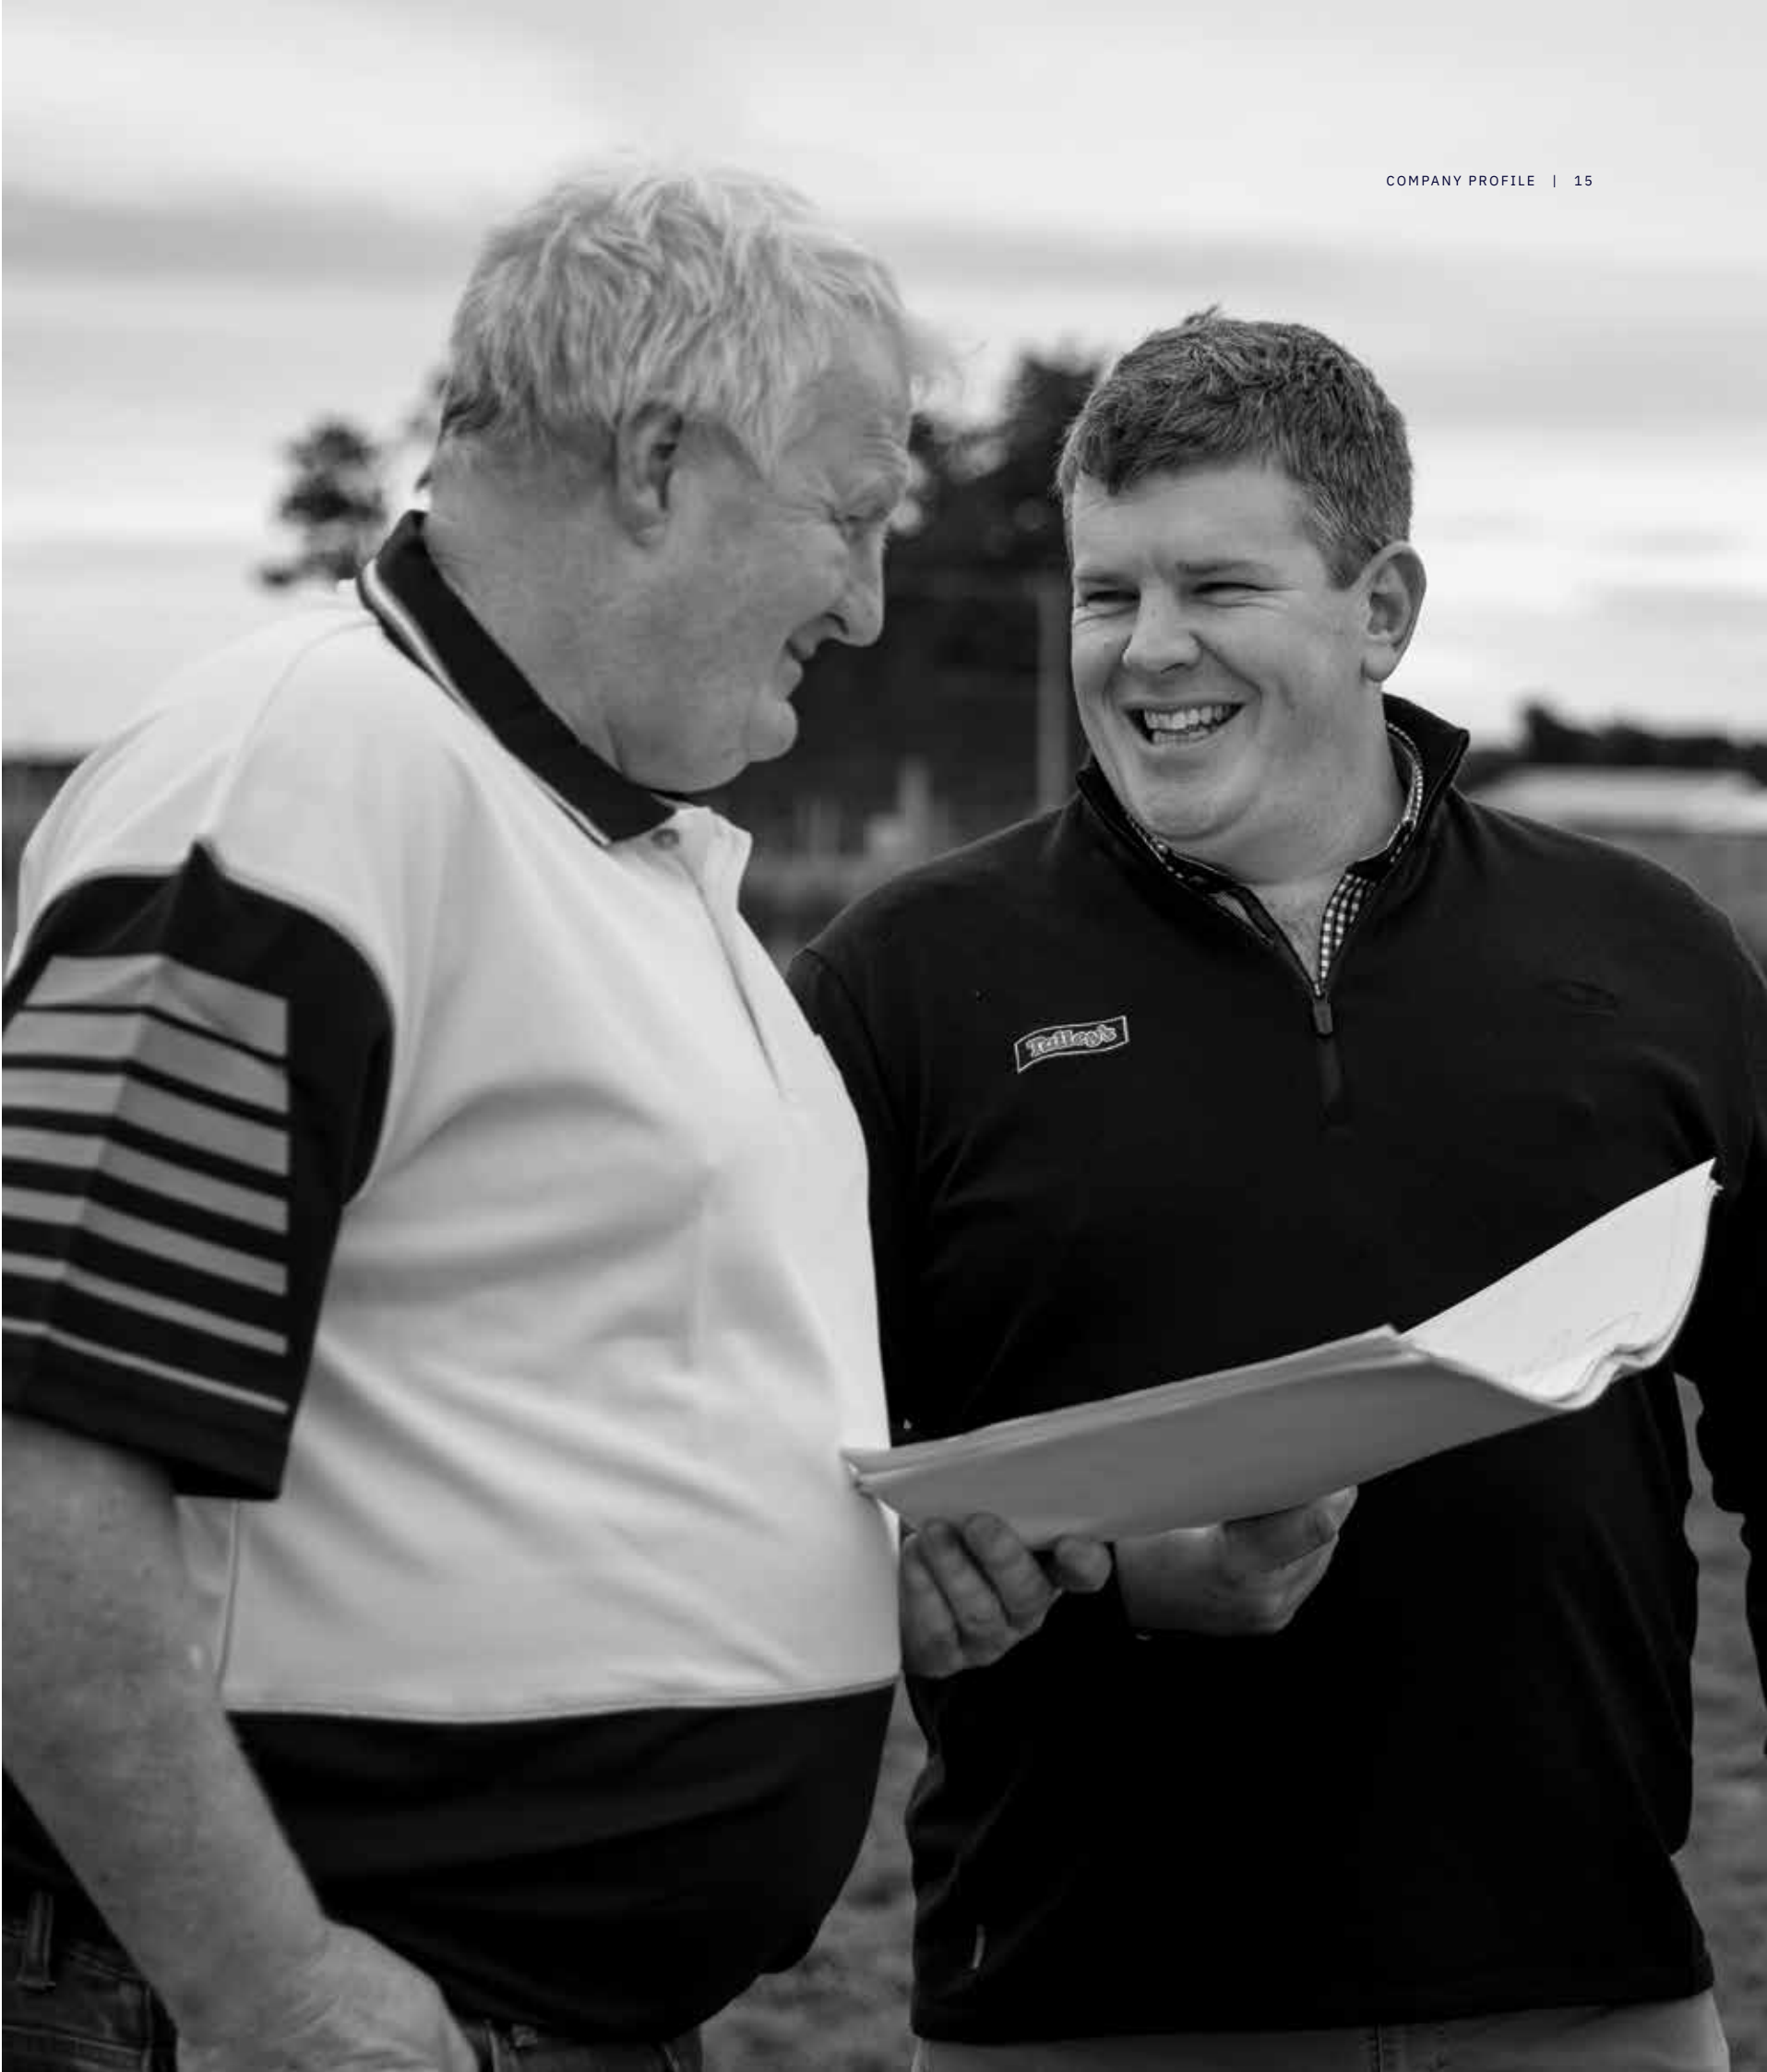

Pilot Vehicle Services

# Who we've worked with

We've completed a wide range of agricultural, residential and commercial projects across the South Island, and we are privileged to have worked alongside some of our clients for over 30 years. The processes we have developed, our investment in people and equipment, and our Done Right attitude has seen us selected as the contracting partner of choice for some of New Zealand's most well-known brands.
